

Comprehensive Registration Packet Speech, Language & Social Skills Therapy

Welcome to Social Strides!

Enclosed are the necessary registration forms and questionnaire. We ask that you return the completed documents prior to or during the intake evaluation (meet and greet). Please remember that while our initial meeting and completion of the registration forms do not guarantee placement in our program at a specific time, this information helps us to determine the best possible course of treatment and group fit for your child. It is imperative to compete and turn in a time availability worksheet; your final schedule depends upon this information.

We are an "out of network" provider. You will be invoiced for the month at the end of each month and will receive a receipt for all payments. *One excused absence for any reason is allowed per semester without charge* and we ask for 24 hours advance notice in the event of a cancellation. If you have questions about the procedures or amount of fees your insurance or school district will cover, please contact them directly.

Please send us a copy of the most current diagnostic information to include the following (*if available*) so that we will have documentation for insurance coding and history on your child's needs and progress to date/in the future:

- □ psycho-educational results
- □ speech/language/social skills testing and/or therapy summaries
- \Box current I.E.P.
- □ O.T. or behavioral summaries, evaluations/reports
- □ psychiatric/neuro-psychiatric evaluations

If you should have any questions about our services, feel free to call us at 650.533.8533. Thank you for selecting Social Strides. We look forward to seeing you!

Best regards, Diane Levinthal, Director

Speech, Language and Social Skills Therapy

It is helpful to take pictures and film of students as they interact during therapy for assessment purposes and self-monitoring opportunities as part of social language/skills work.

□ I give my permission to have my child appear in direct/background footage to be replayed and used as part of the students' therapy (video playback monitoring), staff training/parent consult or student evaluation.

I understand that photos and film will not be shared with student groups other than the one in which my child participates or used for any other purposes than those listed above.

□ I do not give my permission to have my child appear in direct/background footage taken at Social Strides and that this may affect group availability for my child.

Speech, Language and Social Skills Therapy

POLICY STATEMENT

How therapy groups are organized:

• During the school year, social groups will begin in mid September and run through mid June. Summer program runs late June through mid August.

• Social Groups are carefully arranged according to student match regarding social, cognitive and behavioral ability and fill up quickly. Size is limited to 2-4 students. These after school sessions are 60 minutes in length. The first 45 minutes are for direct instruction with students and the final 10-15 minutes are spent in parent/caregiver consult. Carry-over assignments and activities are offered during the parents' time and are an important link to improving social competence in every day situations.

• Continuing students do not need to repeat an intake assessment.

• Individual sessions for speech/language therapy are scheduled on a weekly basis, usually for a period 60 minutes.

Thank you for understanding that scheduling well-matched groups across family schedules and cities is extremely challenging. The integrity of each group is dependent on information provided about day and time availability prior to participation in group and then each student's presence for the others throughout a semester <u>once a group has begun. Drop outs for seasonal sports or other commitments result in an unsatisfactory experience for all the participants. Families are expected to make every effort to attend all semester sessions. This is particularly true for</u>

those seen in small groups of two students!

Thank you in advance for consideration of these factors.

Fees and Policies:

• For therapeutic and diagnostic rates, please email info@socialstrides.com.

• Families are invoiced during the first week of the month for the preceding month's therapy sessions. Beyond one unbilled absence allowed for any reason per year, all scheduled sessions will be invoiced. Please know that it is often possible to make arrangements in advance for groups to meet at alternative times/days for make-up sessions; check with your therapist. Balances remaining overdue in excess of six weeks are subject to a late fee of \$25 per each month that it is left outstanding unless other arrangements are negotiated.

• 24 hour notice is appreciated if your child will be missing a session and two weeks notice are needed if your child will be discontinuing therapy.

• Parents and agencies wishing to contract for consultative and/or collaborative work in the areas of occupational therapy, behavioral intervention or other related services will be given referrals and the fee schedule of the individual provider(s). Social Strides does contract with school districts and will work collaboratively with ABA agencies to develop and monitor social and language programming implemented by behavioral teams.

• Workshop fees for regular education classmates are determined on a case by case basis and depend on the number of students/classes to be included and the overall number of visits arranged to the school site.

• Strides is an out of network provider and families are expected to keep their balance current independent of seeking insurance reimbursement. As a convenience to families, medical insurance codes may be provided on invoices for students holding a medical diagnosis.

Please sign and date below that you understand and agree to the above policies ~ Thank you.
